

### Transformer 400 kVA

<b>Supply:</b>	400 V overvoltage
<b>Outputs:</b>	460 V - 500 V - 580 V - 690 V under voltage
<b>Power:</b>	400 kVA
<b>Details:</b>	AC cast resin autotransformer (not isolation transformer / no galvanic isolation) Suitable for outside use when in casing. Air-cooled. Connection options via CU track connection directly on the transformer. Transformer not equipped with protective devices. Switching group: dYN5 Rated percent impedance at 690 V: 6% frequency 50 Hz
	Length: 1,100 mm Width: 740 mm Height: 1,350 mm Weight: 800 kg
<b>Extras:</b>	Forklift pockets
