

### Transformer 2,500 kVA

**High-voltage:** 690 V

**Low-voltage:** 400 V

**Power:** 2,500 kVA

**Details:** Three phase cast resin transformer in 10 ft. container (autotransformer caution NO galvanic isolation) suitable for outside use, air-cooled  
Connection options on high- and low-voltage side with fuse switch disconnectors NH3  
high-voltage supply is fused with power switch disconnecter 2,500 A

**Switching group:** Yna0

**Uk%:** 2,52 %

**Frequency:** 50 Hz

**Dimensions:** Length: 2991 mm  
Wid: 2438 mm  
Height: 2591 mm  
Weight: approx. 12 t

**Extras:** transport loops for crane loading, forklift pockets
