

Low voltage main distributor 2 x 4,000 A

Supply: 2 x supply panels consisting of:
2 x plug-in power switches, 3-pole, 2,000 A,
motor drive and multimeter display

Outputs: 2 x 1 outlet panel consisting of:
9 x fused load break switches NH3 / 630 A
4 x universal measuring devices with peak warning display

Extras: Combinable low voltage systems
Extension possible by 2 x 4 peak value displays
for fused load break switches
Outlets may also be equipped with other fused load
break switches
increase possible with mains switching unit (with break)

Length: 3,000 mm
Width: 2,500 mm
Height: 2,600 mm
Weight: 3,000 kg
